LATIN AMERICAN COINS SEEMED TO BE ONE OF THE FEW SERIES IN CURRENT FASHION AT THE RECENT NEW ORLEANS ANA CONVENTION.

Unlike the "flat market" experienced by dealers in U. S. coins, world gold and even most European silver, we had a larger sales volume (in number of clients and total dollars) than at the peak-market 1980 Cincinnati ANA. Concurrently our list #59 drew more than 100 orders, 95% of which were from collectors. Given this demand, we decided to respond with another list featuring a significant number of new and interesting additions to our stock.

The broad popularity of the "10% discount" option (available to clients ordering $200+ from the minors) on list #59, has inspired us to repeat, and even extend, the 10% discount option for this list #60. On all coins from this list, you will receive an automatic 10% discount if you do either or both of two things: (1) Order at least $200 in coins and/or (2) order at least ten different coins, regardless of their value. This second clause has been added to benefit some of our less affluent customers. Also, credit terms are available.

INEXPENSIVE LATIN AMERICAN MINORS in "Mint State or nearly so . . ."

AS A RESULT OF THE CURRENT CRAZE TO OBTAIN ANY OLDER COIN IN A SUPERIOR STATE OF PRESERVATION, we too have attracted a sizeable clientele of collector-investors with that single goal. It is becoming more obvious that they have quickly withdrawn the great majority of AU and UNC inexpensive pre-1940 minors from the visible marketplace. As this phenomenon becomes apparent, the laws of supply and demand will obviously force the prices of this high grade material to disproportionally higher levels.

OUR ORIENTATION WILL CONTINUE TO FOCUS ON THE COLLECTOR rather than the investor. However this section will serve to indicate that Latin American minors are still obviously "underpriced" by any current standard.

It should be apparent that few coins are actually un-circulated (never circulated); certainly most of the commercial UNC (i.e. MS-60) pieces could claim a few months of travel from one purse to another. OUR A. UNC AND AU-UNC PIECES GENERALLY ARE TYPICAL "COMMERCIAL UNC"; please keep this in mind as you prepare your order.

INEXPENSIVE MINOR TYPE COINS OF LATIN AMERICA

The following "collection" of Latin American minor coins is generally oriented toward type, rather than date, collectors. Many of these pieces cost relatively little and yet one might require a full year to locate even a single specimen! Please note that our "Y" numbers are usually from the Yeoman volume and that they may differ slightly from the Krause book.

NON-LATIN AMERICAN COINS AT BARGAIN PRICES

It has been more than 16 months since Marney Albert issued Sierra list #10. During these months, Marney and Freeman got married and now have a 15 week-old son. Sierra Coins might get resurrected eventually but in the meantime, it seems a wise business decision to divest it of its non-latin coinage.

With current interest rates, the cost of not selling the following coins 16 months ago is already 25% of their value. Couple that with a 20% + 10% discount and your net payment will realize only half as much for us as we would have received if you had bought them via Sierra list #10. Many of the coins are doubtlessly worth more than we are asking for them (note the current Krause values) but our simple objective is to sell them all right now.

All pieces are immediately discounted 20%. If you qualify for an additional 10% discount per the terms on page 2, your total discount will be 28%!! Please order.
